### CARLANIA

## EL PETIT CARLANIA

Jordi Miró & Sònia Gomà-Camps, who had been farming for several years, started bottling wine under their own family name in 2017. They currently farm 9.3 hectares of vines in the Conca de Barbera, the ancestral home of trepat. The region is 20 miles inland from the Mediterranean and the 5 vineyard sites that the couple farms are heavily calcareous, leading to sharp, intense and super focused expressions of this unique grape.
