## MARTVILIS MARANI TSOLIKOURI KRAKHUNA

Martvilis Marani, formerly *Vino M'artville*, decided to honor their Georgian heritage with a more traditional name. Founded in 2012 with .5 hectare of vines, Martvilis was producing under 3000 bottles. They've grown to a production of over 11,000 bottles, farming 4 hectares around the cellar in the western Georgian Samegrelo region and sourcing fruit from friends and like minded growers in Imereti, Lechkhumi and Kakheti.
